**SUPER COVERALL**

**ATTACK**

**COVERALL**

**TORNADO**

**COVERSAL WELDING GOGGLE**

**LASER RANGE**

**FACE SHIELDS**

**PRESCRIPTION SAFETY SPECTACLES**

**LASER RANGE**

**Laser Range**  
EN207 & 208 CE0196

Specialist range of goggles and eye-shields which absorb laser beam light. A range of styles, with choice of lenses dependant upon the laser being used and its optical density.

**FACE SHIELDS**

**Eclipse Brow Guard - BF-2H**

An extremely light, fully adjustable head harness and brow guard. Can be adapted for use with safety helmets.

Wide vision visors sold separately.

Choose from:

**Eclipse Polycarbonate Visor - BF-22S**

**Eclipse Acetate Visor - BF-21S**

**OPTICAL SERVICES**

**Prescription Safety Spectacles**

Bollé have operated an industrial prescription service for almost 20 years. Order your prescription safety spectacles through FWB and you will be able to choose from a range of stylish frames, at highly competitive prices.

- FWB will show you the different frames for you to try on and choose the style you prefer
- You then visit your optician for your eye test and prescription
- The lenses are manufactured at Bollé's ophthalmic laboratories
- You visit your optician for the fitting
- Invoicing is through FWB

The service offers a significant saving on the normal price of frames. For large numbers of employees requiring this service, we can arrange for eye tests to be conducted on site.

**Prescription Office Spectacles**

For employees requiring non-safety spectacles for office use (eg, VDU users), we offer the same service as for prescription safety spectacles. You choose from the same range, but without the protective side shields. Again, the service offers a significant saving on the normal price of frames.

**Vision Screening**

Vision screening is vital to ensure that employees' eyesight is fit for the job they do. We can arrange on-site vision screening - thus helping you save on lost man-hours by conducting screening in-house.

**"One Vision" Video**

Essential information to encourage employees to wear eye protection. Includes;

- How the eye works
- Dangers to the eye in the work place
- Levels of eye protection
- Common questions and answers

**VISION SCREENING**

**SAFETY SPECTACLES**

**Pulsafe Millennia™ Safety Spectacles**

Pulsafe Millennia's unique lightness, comfort and all-round vision encourages **100% wear time**, thereby avoiding even the smallest risk of an eye accident.

Each pair of Pulsafe Millennia spectacles are supplied with a Pulsafe Flexicord Retainer - for extra security and to allow spectacles to hang when not in use.

**Designed for the face:**

- The frame holds to the face, irrespective of the wearers' job
- The spectacles have no hockey ends and need no adjustments
- Balance and lightness results in a virtually weightless feel

**Quality of Vision:**

"Parallel vision control™" creates a lens so perfect it:

- Offers complete protection to the eye and eye socket
- Delivers a full 180° clarity of vision, including side view
- Produces no distortion, blurring or frosting

**Lenses:**

The Millennia lens is made from optical quality polycarbonate with abrasion resistant, hard coating. All the lenses provide protection against most commonly encountered hazards (ie, impact protection). Fog-Ban anti-fog coatings are also available.

The following lenses are available:

**Lens Colour:** Clear

**Lens Marking:** 3-1.2 D1F

**Lens Application:** For indoor use

**EN Standard:** EN166 general performance  
EN170 for UV protection

**Frame Colours:** Blue, Burgundy, Silver, Black

**Lens Colour:** TSR Grey

**Lens Marking:** 5-2.5 D1F

**Lens Application:** For outdoor use when sunlight and glare can cause eye fatigue. Meets the requirements of colour traffic signal recognition.

**EN Standard:** EN166 general protection  
EN170 for UV protection  
EN172 for tinted lenses

**Frame Colours:** Blue, Black

**Lens Colour:** HDL Yellow

**Lens Marking:** 2-1.2 D1F

**Lens Application:** To provide high visibility and good contrast in low light conditions.

**EN Standard:** EN166 general protection  
EN170 for UV protection

**Frame Colours:** Black

**Lens Colour:** I/O Silver

**Lens Marking:** 5-1.7 D1F

**Lens Application:** High performance lens for indoor/outdoor use to reduce artificial and sunlight glare

**EN Standard:** EN166 general protection  
EN170 for UV protection  
EN172 for tinted lenses

**Frame Colours:** Black

**Lens Colour:** Silver mirror

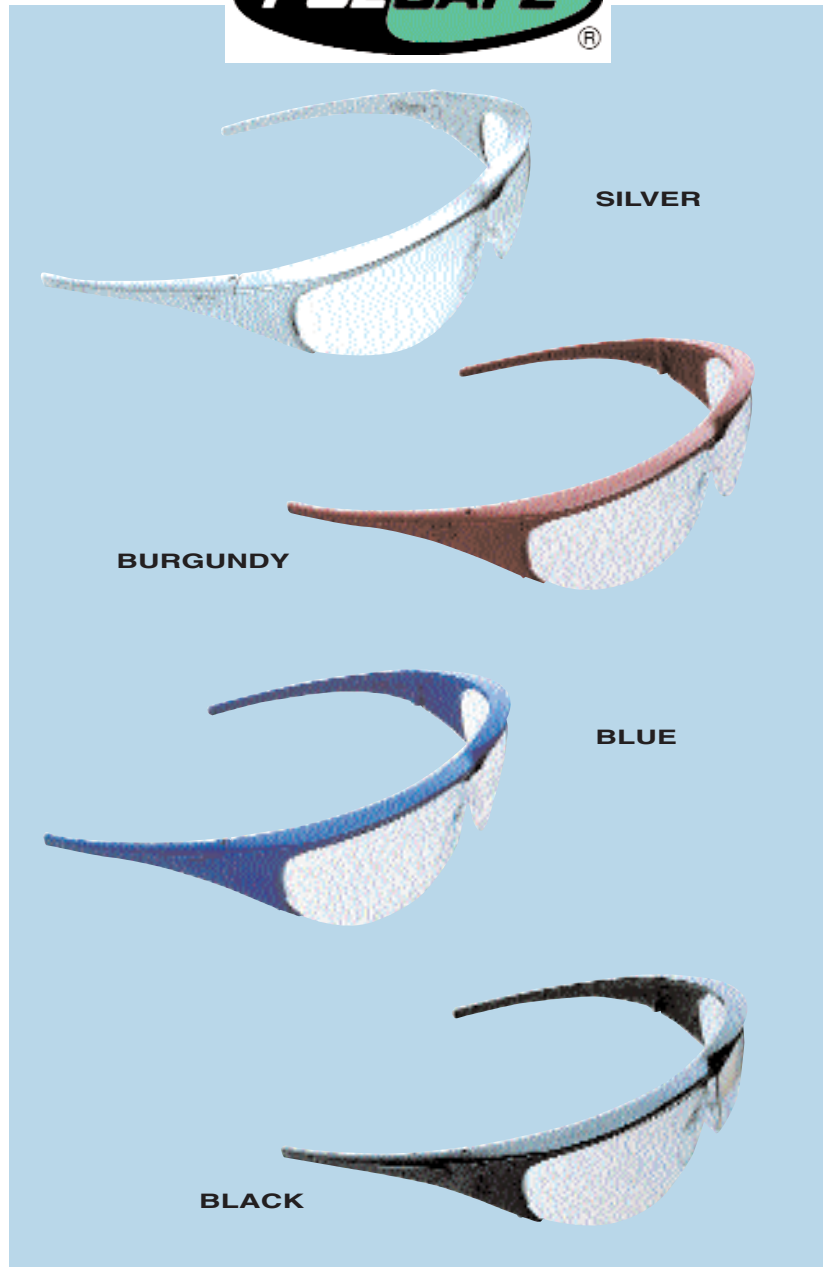

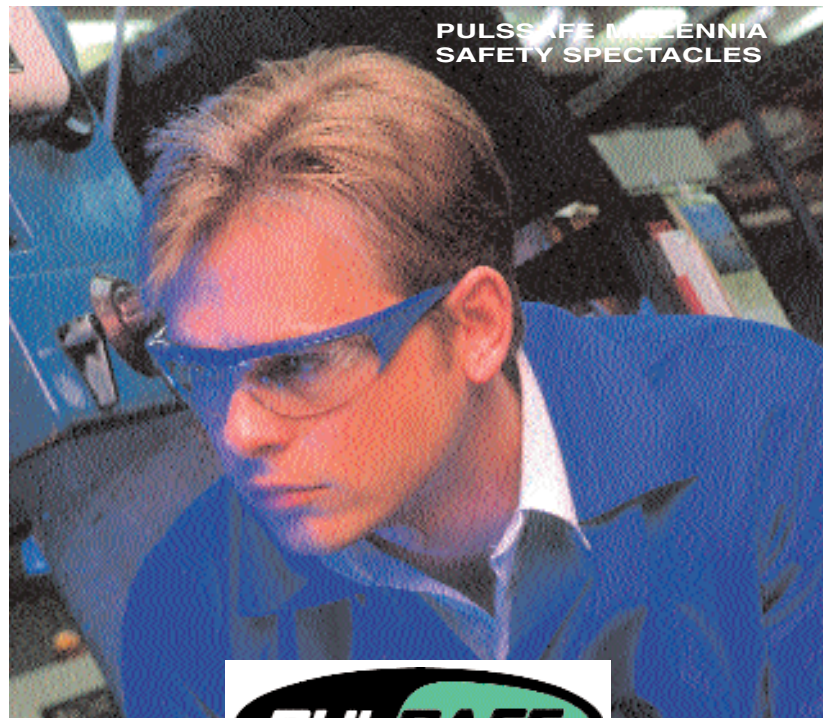

**Lens Marking:** 5-3.1 D1F

**Lens Application:** For outdoor use when bright sunlight and glare can cause eye fatigue

**EN Standard:** EN166 general protection

**Frame:** Black

### Hi-Style 6000

#### EN166-1F

Recognised for its quality, style and weight. Temple wired sidearm ensures a precise fit

#### 6012C

**Lens Type:** Clear polycarbonate  
**Frame:** Cobalt Blue

#### 6012T

**Lens Type:** Clear polycarbonate  
**Frame:** Tortoise Shell

### 5000 Series

#### EN166-1F

Cost-effective and robust. Lightweight moulded frame with deep integral sideshields. Pre-set temple arms

#### 5011

**Lens Type:** Clear polycarbonate

## LIGHT PROTECTION TECHNOLOGY

Lenses in the Light Protection Technology Range absorb the eye-damaging wavelengths of ultra violet, infra red and blue light. The lens works by absorption not reflection and therefore does not create hazardous reflections.

Lenses available:

#### IR/PC EN169

**Shade:** 3 (ocular)

**Applications:** Acetylene welding, cutting and brazing

#### IR/PC EN169

**Shade:** 5 (ocular)

**Applications:** Acetylene welding, cutting and brazing

### Santa Cruz

A comfortable, stylish spectacle, lightweight with a one-piece wraparound lens. The adjustable positive lock temples give the product a first class fit

**Frame:** Black

**Lens:** Shade 3 (ocular)

**European Standard:** EN166 EN169-1F

**EYESHIELDS**

**AX**

Practical, durable eyeshield offering high levels of protection and comfort. Frosted side panel and browguard sections reduce glare/reflections. Curvature set temples and raised nose bridge offer a precise fit.

**AX1H - EN166-1F**

**Specification:** Abrasion resistant lens

**AM Series**

Ideal for visitors/contractors. Raised nose bridge and pre-set temples for comfortable fit.

**AM1 - EN166-2F**

**Specification:** Polycarbonate

**GOGGLES**

**Vistamax VX**

High performance goggles for many different applications. Innovative, anti-mist twin lens system. Can be worn over prescription spectacles.

**VNC21 - EN166-1-345B**

### Uvex Clear 9990 000 Cleaning Station

Mirrored, wall mountable unit (with fixings) includes:

- Uvex clear lens cleaning solution (16 fluid oz) specially designed for anti-mist and anti-scratch coatings
- Four boxes of 500 non-abrasive, high absorbing tissues (Can also take uvex cleaning towelettes)

### Uvex Head Bands

Adjustable elasticated headbands hold spectacles in place when working, or allow spectacles to hang when not in use.

#### 9958 003

For use with: Duo-flex & standard temples

#### 9958 000

For use with: All standard temples

### Uvex Spring Top Spectacle Case

Made of soft vinyl with a spring-top closure.

## GOGGLES

### Uvex Ultrasonic 9302

EN166 1B 349KN

Revolutionary goggle with exceptional wearer comfort. The combination of hard/soft components means that pressure never becomes a problem, even after long periods of use. Soft, flexible component provides complete side protection even over prescription spectacles.

#### 9302 645

Lens Type: Supravision HC-AF, clear

### Uvex Ultra-vision 9301

EN166 1B 349KN

Anatomically shaped and soft material offer the best possible comfort in a full-protection goggle. Integrated, indirect ventilation allows air movement directly across the lens. Frosted top reduces glare. Lens to EN166 Class 1, allows 180° uninterrupted, undistorted lateral vision. Can be used over prescription spectacles and with a respirator.

#### 9301 625

Lens Type: Supravision HC-AF, clear

#### 9301 626

Lens Type: Supravision HC-AF, clear

Additional Features: Foam insulated

#### 9301 045

Lens Type: Infradur PLUS, shade 5

### Face Protection 9301 317

EN166 1B 349KN

Lightweight lower face shield, with added ventilation. Clips onto Ultra-vision goggles. Fits over breathing filter.
